PROFILE SUMMARY

Full Stack Developer with 1+ year of production experience building cross-platform mobile and web applications using Flutter and React. Currently delivering a GST invoicing solution at Techrays Labs serving real business clients — integrating 25+ APIs across Flutter mobile and React web. Skilled in real-time systems (Socket.IO), RESTful API integration, and Agile workflows.

SKILLS

Frontend: React, Vue.js, Nuxt.js, Tailwind CSS, Framer Motion, WebSocket, Vite

Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT / OAuth2

Mobile: Flutter, Provider, Responsive UI

Languages: JavaScript, TypeScript, Dart, Python, C++, C

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman, Android Studio, VS Code, Figma, Agile/Scrum

WORK EXPERIENCE

Programmer Analyst – Techrays Labs Pvt Ltd

01 July 2025 - Present

- Engineered a production GST invoicing & billing app — Flutter mobile + React web dashboard serving real business clients
- Integrated and tested 25+ RESTful APIs for GST validation, invoice generation, and payment workflows
- Built responsive UI components, dashboards, and onboarding flows across both mobile and web platforms
- Collaborated with backend, design, and QA teams in an Agile/Scrum environment with weekly sprint cycles

Programmer Analyst Intern – Techrays Labs Pvt Ltd

03 February 2025 – 30 June 2025

- Developed Flutter applications with authentication flows, navigation management, and responsive UI layouts using Provider for state management
- Integrated RESTful APIs for seamless data exchange across Vue.js and Flutter projects
- Contributed to web apps using Vue.js, Nuxt.js, Node.js, Express.js, and MongoDB
- Maintained version control and participated in code reviews via Git and GitHub

PROJECTS

GST Invoicing & Billing App (Production — Techrays Labs)

Tech Stack: Flutter, React, REST APIs, Dart

Responsibilities:

- Cross-platform billing solution — Flutter mobile app + React web dashboard used by real business clients
- Integrated 25+ APIs including GST validation, invoice generation, and payment workflows
- Serving active business clients with real invoice and payment data in production

Personal Portfolio Website

Tech Stack: React, TypeScript, Framer Motion, Vite

Responsibilities:

- Designed and built a fully custom portfolio with a dark/light theme system
- Integrated EmailJS for a validated, working contact form using React Hook Form and Zod schema validation
- Live at: anshuldhiman-dev.vercel.app

Real Time Chat Application

Tech Stack: React, Node.js, Express.js, MongoDB, Socket.IO

Responsibilities:

- Implemented one-to-one and group messaging using Socket.IO and WebSockets
- Supported real-time message delivery with persistent storage in MongoDB

EDUCATION

B. Tech – Computer Science Engineering

Uttaranchal University, Dehradun, Uttarakhand

CGPA: 8.38

September 2021 – May 2025
